## Snowflake Series: Hydrating and Deep Cleansing

### Hydra-Snowflake Treatment (60-min)

**Ala Carte**

**1st Trial**

This is a hydra-dermabrasion treatment that **deeply cleanses, exfoliates** and at the same time, **hydrates** our skin with intensive serums. This is a great facial treatment that targets blocked pores, replenishes skin with moisture and brightens skin immediately. Cleaner, brighter and plumper skin is achieved with this treatment. The difference between this and the Snowflake Treatment is that this treatment is done using the Hydra Facial Machine.

### Gentle Peel, Brightening / Anti-Aging (60-min)

The combination of glycolic, gluconolactone and phytic acid **promotes deep skin renewal, improving skin's texture and reducing the visibility of fine lines and wrinkles.** Peels should be done at least every 3 months to allow better penetration of skin care products and not forgetting the new skin it reveals after every treatment. We cannot emphasize how important a good peel is and how beneficial it is to our skin care routine.
