Gentle Peel, Brightening / Anti-Aging (60-mins)

The combination of glycolic, gluconolactone and phytic acid promotes deep skin renewal, improving skin's texture and reducing the visibility of fine lines and wrinkles. Peels should be done at least every 3 months to allow better penetration of skin care products and not forgetting the new skin it reveals after every treatment. We cannot emphasize how important a good peel is and how beneficial it is to our skin care routine.
